certain States, including those of Beaufort, in
the State of North Carolina, Port Royal, in
the State of South Carolina, and New Orleans,
in the State of Louislana, were, for reasons
therein set forth, intended to be placed under
blockade; and whereas the said ports of Beaufort, PortRoyal and New Orleans have since been
blockade; but as the blockade of the same
ports may now be safely relaxed with advana fag, and they are responding with alac-dy. The Secretary of War has given as consent to Gen. Hunter to receive the services of all loyal men in South Carolina,

We have scarcely the heart for comments a the very moving and lamentable plaint Jefferson Davis, the first and only Presiairo correspondent and give it a place mong important news. It would deserve anse of C. S. A. is evidently at the last gasp. Out of money and "its equivaler clothing and provisions," out of men so low an ebb that they actually do not burn their cities and hamlets at the approach of the Federal armies, Jefferson evidently expects little or pothing to come of the Confederacy. Long before his Richmond Circular was distributed in the Mississippi Valley, Jeff was om his capital to enter it no more. By (cClellan's rash troopers and meddlesome unhouts, and if his Secretary and ink-horn lept him company, and he has any paper, may pen another Circular, but he can of transgressors is hard.

REOPENING THE SOUTHERN PORTS. Elsewhere we give the President's Proc. mation, before referred to in our distches, opening the Southern ports named. abolishes from the first of June ext, the blockade at the ports of Beaufort, outh Carolins, Port Royal, South Caro as, (both likely to be more fatal to the mmercial interests of Charleston than browing them open to the commerce of d States, and to the limitations and regulations prescribed by the Treasury Depart ment. These limitations and regulations both as regards foreign vessels and coas

cular issued by Secretary Chase, which we also give.
In addition to these ports, Norfolk, Va., Newbern, Washington, and Richmond will doubtless be opened, and probably Mobile, blockaded coast, will be open to ships of

blockaded coast, will be open to ships of the whole world by the action of the Government. This follows legitimately the order of events which will by that time have restored Federal supremsev along the coast, placing once more under the flag every important Fourtress, and restoring throughout the whole extent the lighthouses and the revenue service. It comes happly in time to remove every pretext for freign intervention based on the disturbance of the world's commerce.

A Hint to Absence officers.

A rety valuable and timely hint to gentlemen fond of displaying their shoulder straps in civic circles, depriving the camps of the light of their buttons and gold lace, is conveyed in the following from an official source:

A Network of the world is commerce, and the key to our granatics, while wherever we look awe gase upon an advanting army.

AND HOW IT MAGUES THE PROPER.

This appeal is made to the country. We enable the appeal to the people through the Governors of the States, securified the Confederacy, and the general in command of our armies. To these me diams the circular is sent, with the very urgent request that its spirit and intent, if not its letter may be conveyed to every citizen of our strangling Republic.

Clothing and provisions will be acceptable as substitutes for money when the latter cannot be obtained

WANTED-DEFOTION, ALSO MEN.

Second—We need men. The ranks of our army in the field are constantly being thinned by the cassualities of battle, the sickness incident to army life, and the expiration of embassments. We cannot close our eyes to the fact that the places of the men are not filled so premptly as they should be. Let us see the devotion of the country to our cause by their willingness to fight its battles, and if need be pour out their blood in its support.

WANTED-PATRICITES.

There we need the encouragement of the people by a more ilberal display of patriotism than has yet been shown.

IN DEFINITION OF THE ARMY THESS.

The tame submission yielded to the luvader, wherever he appears, is in striking contrast to the beast we have hithorto heard—of the readlesses that prevailed on every hand to welcome the hiralings with bondres composed of the dwellings and property of the people.

A VERY THEASANT SUBMENTON.

If our said is to be overum and our people subjugated, let us leave our conquerors a smouldering waste to reward them for their toll and pains. Burn every hamlet, village and city—give the torch freely to your cotton houses, and let the product of your told be laid waste.

THE COMPLIXES SOUTHERN PATRIOT.

Ply your revelve here the livaders, where resistance shall be leeger avail, and thus deplay a determined in and print in the cause for which we

duct of your test be issue water.

THE COMPLETE SOUTHERN PATRIOT.

Ply yourselves before the invaders, where resistance shall to longer avail, and thus display a determination and spirit in the cause for which we are all emisted that will give us encouragement to continue the stuggle.

BOOTLESS VICTORIESS OVER SHOELESS ARRIES.

Wherever the soumy schewe a victory lot it be a bootless one, so that their bands, now led on by hope of plumder, shall be disappointed and discouraged, and we shall be cheered by the manifocuraged, and we shall be cheered by the manifocurage of devotion and patriotism.

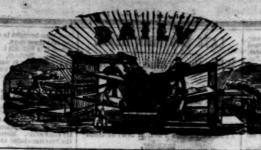

Once more we axhort you to awake, shake off the letheragy that hangs over you, strike for freedom of yourselves, your mallies and your homes.

Strike prompoly and coldy and our Confederacy may yet be firmly a tablished.

This is our last and only recourage. Those whe rootes this order will be commissioned as agents of the Government, to advance the purposes indicated. Pall letters of instruction will be terrained them.

Too much credit cannot be accorded to Gen Fuller, whose large heart, willing hand and toficatible will, has don's so much to atwace the interests of our brave Illinois toys. From the first hour up to the present time, he has labored with undinching, untiring energy in conceiving and executing measures that would alieviste pain and cubuous the comfort of the wounded and dying. Large executive capacity, with force of character, and we could not but feel, as we heard the liping prayers of our wounded boys in his behalf, that it was good to be a humane, howord servant of the people. In his present position his "price is above wifes," and there will be laid up in the hearts of the people of Illinois a reward commensurate with his services.

particularly so much so that it was deemed advisable by our mandators to take preliminary steps to place their valuables in a more safe place of security than the vaults were supposed to afford. Monday and Tuesday, three of the banks redeemed their circulation, others in part. On Wednesday a general request was received from the authorities in Richmond for the banks to refrain from the further paying out of coin. On Thursday morning our community in general was astounded to learn that several vessels of the Federal fact had passed the fort below. A general scene of confusion and excitement ensued.

Rome of the banks requested their deposi-tors to withdraw all their tin boxes and valuables on special deposit, and declining to re-ceive deposits. At meridian two of the banks closed their doors, declining to transact any turther business. Motes, of course, went un-paid, though there were few falling due. On Friday the excitement and panic were still fur-ther increased by the arrival of the enemy's vessels in front of the city. The banks were unmediately closed, and have remained closed since. When they will open again for regular oushness, it is impossible to predict or fore-ted. The meaning of the control of the

business, it is impossible to predict or foretell.

In the meantime, our currency is in a perfect state of chaos, though it is hoped the
panic connected with it has run its course,

We do hote, for the good of all-ver ders and purchasers—that supplies will be forthcoming to day, and thenceforth, in sufficient quantities to meet the demand, and a reasonably moderate prices. O'RE DOMESTIC CURRENCY.—The following letter from the well known floancier and banker, Mr. Jacob Barker, was elicited by one addressed to him by one of the Provost Marshale of this city. Its suggestions and recommendations seem you well works.

Restoring the Currency in Virginia (Correspondence N. Y. Evening Post.) Restoring the Currency in Virginia (Correspondence N. T. Svening Post.)
The greater part of the amount due it roops (of McClellan's army) is paid in Tree sury notes. A few dollars in gold and sliver will be put in circulation, which, wit are given to each man. In this way seven thousand dollars of good money, gold and siver, will be put in circulation, which, wit our Treasury notes, will soon drive the word less notes of the worthless Confederacy or of circulation, and, by showing the people of Virginia what a broken reed they have been sing on in the Southerr Confederacy, hel them to appreciate the blessings of the old and snif Government. It is amnaing to se how these people open their eyes at the sight of gold or silver. I gave one of them som silver the other day, and he could hardly was for me to put it into his hands, so great we his impatience. His eyes glistened and spartled, and he turned it over again and again, a child would a new plaything. It was this first he had soen since last April, more than year ago. Ever since tien, the people of the Confederact States have been using shinplaters, and these were printed on such abomina be paper that many of them are quite wor out, while many are still kept in circulation to make the out of the many are still kept in circulation to the such part of them are quite wor out, while many are still kept in circulation to the such part of the mare quite wor out, while many are still kept in circulation to the such part of the mare part of the mare part of the marked and the part of the marked part.

rescue was a total failure, and the two men were publicly executed last Friday.

—The message of Gov. Peirpont, published in our report of legislative proceedings yesterday, was the most incendiary document ever sent into a Virginia Legislature, at least in these latter times. This time last year it would have been considered a shocking production by the "Conservatives," but now even the Wheeling Press can swallow it.

—Captain Hill, who has been acting as Provest Marshal of Charleston, Kanawha county, arrived last night on the Salie List, having in clarge thirteen or fourteen prisoners, captured by Gen. Cox's army, on its advance, near Princetou, a village southeast of Raleigh. Among the prisoners is sounce Kuhl. who was sentenced to have a rain out and chain account of the way war, by the was recent court martial at Charleston. He was heavily broned.

—Deputy U. S. Marshal, W. H. Irwin, returned on last night's train. He has been on a flying visit to the mountains. Preedow, Lasalle Co., III., March 18, 1882. 319 feet, breadth of beam 32 feet, depth of hold 13 feet. Be is of 600 tons burther, and will carry 30,000 benshels of wheat, or 8,500 barrels of flour, or perhaps to better advantage 25,000 bushels of wheat and 2,500 bbts. of flour, Her centimes have 44 incheylinder and 40 inehistroke—low pressure. Her bottom is more than three feet thick, her sides of unusual strength, with water tight bulkheeds constructed fore and aft. Her cabins are probably more commodious than any other propeller on the Lakes, while her siste rooms, which in all will accommodiate about seventy-five passengers, are patterns of neatness, equal to the river and Sound steamers. As we have said, she is intended for the People's Line, which will have three more new propellers—the Badyer State, Ousside and Duffalo—added to the line in a few weeks. When the others are ready, the line will send a propeller from this port daily for Buffalo. Capt. J. W. Brett, formerly of the Racine, and the oldest captain in the service of the People's Line, commands the Buppire State. He is a man who thoroughly knows his duty, and does it. Joseph Myers is list Mate; Robert Moore, 2d Mate; Justus Vallet, 1st Engineer. Sanford and Hall are the agents of the Empire State.

[From the Mark Lane Rayrosa, April 21.]

The past week has varied, the opening being coid and harsh, followed by a heavy rain, and criffects of the late danges have plainly told upon the growing crops, much of the wheat having become yellow and unhasithy in appearance; but, on the wao'e, a check to its inauriance may be serviceable. More wheat worm has however, bean complained satter so much rain must have cut the pear blosseums and earlier fruit. With diminished supplies at several country markets the wheat trade has either been frm, or prices is per or higher. The have supposition, indeed, of a peofracted harvest, of home-growth get reduced, naturally raises the value of cereals generally, spring corn having hardened during the week. The intervention, however, of the holidays has restricted business to very narrow limits, and the future must principally depend on the weather. But no prophet or Christianity, though weekly and seasonal predictions abound. The certainties only seem to be, that the harvests of 1860 and 1861 were seriously deficient and that the present year will want very large supples, the extent of which must depend on the weather of the previous was the present of the previous rainer wanted; but, with large arrivals at D. 18-18. The market had recovered the previous at the previous and the previous at the prev is not large. The rise is influenced by the New York market.

THE ATLANTIC AND GHEAT WESTERN RAILWAYS.—The New York papers state that the obstacles which have stood in the way of the prosecution of the Allantie and Great Western Italiway enterprise have at length been removed, and the work is about to be pushed forward with vigor to completion. T. W. Kennard, Ege., of London. Bagliand, is the engineer of the road. He has already purchased all the rolling stock, made arrangements for employing six thousand men, and expects that by the first of October next the line will be completed to Akron, Ohio, when the Brie Railway Company, with its Gieveland and Pittsburgh and Mahouing connection, will have a through line, with the six foot gange, from Cleveland, Ohio, to the long dock at Hoboken.

Caxaba Specie.—All, or nearly all, of the Montreal produce merchants, brokers and desiers. CANADA SPECIA—All, or meany all, of the mon-treal produce merchants, brokers and dealers, have signed as agreement to receive and pay out English shillings and sixpences on and after the 13th inst., only at the rate of 34 cents and 13 cents respectively. This is a much needed step, as they sometimes lost a considerable proportion of their commission or profits by the discount at which they had to sell these coins.

BENTES—The receipts are again heavy, Illiaois continuing to pour ont her stock of corn-fed and still-fied in unprecedented marbers. Last week will swell up to 4,515, or 800 more than then. The average weight, perhaps, is something less, most of the drover capacially those from Illiaois. Consisting of ca ill-averaging from 1,150 to 1,300 Be. The, eare very few heavy heaves on sais, and only three or four droves, and they small, that approach thiose, that came about a sense premium as any we have seen. They are very fine, fat thio corn-fed, averaging something over 1,400 Be, John Hayden, Jr., has a lot of 18 State steers, corn-fed, which he thinks are shead of anything in the yards. They average about 2,100 Be, and are fine and fat. The market is moderately active.
